Subject: A peaceful demonstration in Italy

Dear all,

yesterday in Italy WILPF Italia, one of the Italian Affiliate of ICAN, was part of a coloured and peaceful demonstration in support of the United Nations Treaty for Prohibition of Nuclear Weapons in a nuclear military base.

At this link you will find a report about that by Elio Pagani, that sounds at the title: "At Ghedi has deployed peace and not the bomb!":

Even if AIMPGN, Associazione Italiana Medicina per la Prevenzione della Guerra Nucleare (IPPNW Italy), Italian Affiliate of ICAN (www.ippnw-italy.org) did not participate, we respect the WILPF Italia's initiative and are glad that everything was coloured and peaceful.
